## **Bilateral Meetings**

- Thursday 14:30-17:00

### **Description**

ICT Cluster of Central Serbia is a business association which gathers enterprises, institutions and organizations from ICT sector from the territory of Central Serbia, based in geographical center of Serbia, in the city of Kragujevac.

Cluster was established on May 21, 2013 with the goal to support and develop the information and communication technologies sector on the territory of Central Serbia.

This goal will be achieved through building capacities and infrastructure of the Cluster to provide support for development of small and medium sized enterprises in ICT field with the aim to enhance their competitiveness, businesses and visibility on domestic and international markets.

Since its establishment, ICT cluster CS has managed to put itself to the map of clusters on national and international level.

On the national level the Cluster has signed the Memorandum of cooperation with three the most developed ICT clusters in Serbia (ICT NET Belgrade, Vojvodina ICT Cluster - VOICT, NIS Cluster of Advanced Technologies - NI-CAT) with which has intensive cooperation on building environment for effective clusters and ICT sector development.

One of 7 founders of Serbian Cluster Association - SCAN and its cluster manager is in SCAN Managing Board. Also, member of NALED - National Alliance for Local Economic Development.

Member of Balkan, Black Sea and Baltic ICT Clusters Network - 3B ICT which consists of 16 full member ICT cluster organisations and 10 associated members which cover population area of over 350 million and European Digital SME Alliance which consists of more than 20.000 ICT SMEs across the EU.
