InstaHouse

Co-Founder

noiembrie 2016 - octombrie 2017 (1 an)

Bucharest, Romania

InstaHouse is marketplace for cleaning services, an "Uber for maids" - if you want to call it like that. It is a romanian web platform where you can easily find someone trustworthy to help with cleaning. Book and pay online in less than 3 minutes.

On the other side you can win some easy money by cleaning houses in your free time.

Școala de Valori

Sales and Operations Manager - Grow Summer Camp project

noiembrie 2016 - octombrie 2017 (1 an)

Bucharest, Romania

Lancerr

Co-Founder

februarie 2016 - octombrie 2016 (9 luni)

Cluj County, Romania

I created a startup called Lancerr that was offering digital services. What was so special about it? We had no employees, no offices. We just helped talented teenagers from our community to find projects and maximise their potential. They had a chance to develop themselves while earning money and we took our share of the pie. Mostly we built websites, but we also helped with design or helped in the creation of a bot ... having international partners too.
